

TRUCKMASTER PORTABLE DIESEL STORAGE & DISPENSING 200-900 LITRES

The Kingspan Titan TruckMaster range is specifically designed for the safe transportation of diesel fuel. Whether you are in the Agricultural, Construction or Forestry sector the lightweight, robust, portable TruckMaster offers

PRODUCT RANGE DETAILS

TM200	TM300	TM430	TM900	Capacity
200 Litres	300 Litres	430 Litres	900 Litres	Length
600mm	600mm	1180mm	1410mm	Width
800mm	800mm	860mm	1050mm	Height

STANDARD EQUIPMENT

Level gauge

Ball valve on suction line

Suction line with mesh filter

12 V DC pump (max. flow rate 50 l/min)

6 m power cable with battery clamps

4 m flexible delivery hose

Automatic nozzle

Lid with integrated lock

Vacuum and pressure relief valve (VENT)

4 lifting shackles

Battery powered LED lamp

Optional Equipment

24 V DC pump (max. flow rate 50 l/min)

12/24 DC pump (max. flow rate 70/35 l/min)

12 V DC pump (max. flow rate 85 l/min)

230 V AC pump (max. flow rate 56 l/min)

Digital flowmeter fixed to the nozzle

Digital flowmeter fixed to the pump

OVERVIEW

KEY BENEFITS

Go Anywhere

-The TruckMaster gives fuel delivery a new mobility. With the efficiency of an oil tank in miniature, it reaches places a tanker cannot go. Rough land, building sites, narrow access points and farms offer no problem to a TruckMaster.

Reliability

-The TruckMaster comes with a 5 year guarantee and 1 year on equipment - all supported by localised customer service. We give you the confidence and support over the lifetime of your product and beyond.

Important Design Features

-The TruckMaster can be easily lifted with its specifically designed lifting eyes or by using a forklift. Additionally, the unique internal baffle wall minimises fuel spillage when the TruckMaster is in transit and all necessary fittings are stored neatly under the lockable lid.

New Models for Efficient Transportation & Delivery

-The new TruckMaster 200 and 300 litres occupy only half a euro pallet for more economical distribution

and reduced delivery costs.

Environmental Protection

- The specially designed area under the lockable lid houses the TruckMaster equipment in a secure leak-proof area. This eliminates the risk of dripping fuel often encountered by an external retrofitted nozzle and hose.
